GLASS
PACKAGING
SOLUTIONS

RANGE OVERVIEW

OUR MISSION

Improve and protect patient's health by providing high quality, reliable, and innovative primary glass packaging to our pharmaceutical customers.

A UNIQUE KNOW-HOW

SGD Pharma has unique know-how and offers innovative premium quality primary packaging compliant with international Pharmacopoeias.

From design to manufacturing, our teams will support you in the development and implementation of your project.

SGD Pharma's corporate quality policy is applied in all of its manufacturing facilities and is compliant with pharmaceutical Good Manufacturing Practices (GMPs). Recognizing that the patient is the end user of its products, SGD Pharma implements the strictest quality standards. All of our manufacturing sites are fully dedicated to pharmacy and are according to ISO 15378 standards. Each of our vials is inspected and packed in an ISO 8 (class 100.000) clean room.

In the pharmaceutical industry more than anywhere else, security of the supply chain is critical. We protect our clients and their patients by making every effort to ensure a continuous supply of glass. SGD Pharma provides back-up solutions from its different manufacturing sites for all types of glass.

Our global footprint and vast distribution network allow us to serve you wherever you are in the world.

A referenced material for pharmaceuticals

As a material with a thousand-year history, and excellent barrier and transparency properties, glass is the standard material for pharmaceutical products.

As primary packaging for drugs, glass, more than any other material, adapts to the requirements of the pharmaceutical industry: washing, depyrogenation and sterilization.

Glass provides optimal protection for sensitive molecules; its barrier properties against oxygen and moisture provide enhanced stability for medications.

SGD PHARMA PRODUCES ALL TYPES OF MOLDED GLASS VIALS, TUBULAR GLASS VIALS AND AMPOULES.

	TYPE III MOLDED	TYPE II MOLDED	TYPE I MOLDED	TYPE I TUBULAR
Clear and amber glass	Soda-lime glass	Soda-lime with an improved hydrolytic surface resistance	Neutral borosilicate glass with high hydrolytic resistance	
Our uniqueness	Our furnaces are fully dedicated to pharmaceutical glass No recycled glass is used	We are experts in inner surface treatments that can be achieved in 3 of our facilities dedicated to pharmaceutical glass	Our know-how in Type I molded glass allows us to respond to some of the market's most complex requirements Two of our sites, at the forefront of the technology, are dedicated to the production of Type I glass	5.0 expansion family of tubular glass provided by internationally renowned manufacturers

QUALITY TO MEET PHARMACEUTICAL REQUIREMENTS

One quality management system worldwide

All of our manufacturing sites are certified to ISO 15378 standards. Our staff are fully committed to consistently adhering to GMPs and applicable regulations to ensure we deliver the level of quality demanded by the Pharmaceutical industry. SGD Pharma collaborates with its clients to design quality specifications that meet their needs.

Quality control throughout the manufacturing process

SGD Pharma controls and manages each step of the entire production process through the following controls and tests:

- Fully automated inspection systems from the initial composition of raw material to the final packing
- 100% on-line inspection to verify the vials to dimensional, functional and visual specifications
- Physicochemical testing according to pharmacopoeias (USP, EP, CFDA, JP)
- Batch release based on complete manufacturing records and QC results

Production and control records are maintained in a computerized system that ensures full traceability.

Regulatory support

Primary packaging, in particular for parenteral drugs, needs to comply with the strictest standards and regulations, as it contributes to the stability and quality of the drug products. SGD Pharma provides Pharma and Biotech companies with all the necessary documentation to simplify the registration and approval processes of their products with the Regulatory agencies.

CLEANLINESS

Pharma Grade Glass

All SGD Pharma facilities are equipped with ISO 8 clean rooms. Particulate levels are strictly and regularly monitored. On-line inspection and packing are performed in this clean environment to deliver compliant vials for patient safety.

Our clean rooms include air locks for controlled material and personnel flow. All staff are highly trained in clean operations, proper gowning and meeting GMP regulations.

GLOBAL FOOTPRINT
