

# Phoenix Glass Bottles For Bird's Nest

INSPIRING CONFIDENCE

## Phoenix

Phoenix is a range of glass containers designed by SGD Pharma Asia Pacific and dedicated to the storage of bird's nest products, solely to protect the preciousness and freshness of bird's nest in a pure container.

This product line is the convergence point of the Eastern traditional craftsmanship spirit and the advanced Western technology.

## Increased safety

- ⊙ Dust-free manufacturing environment, GMP compliant
- ⊙ ISO 22000
- ⊙ Specification and traceability enhance the safety of the end user
- ⊙ Usable as part of HACCP process\*

## Better protection

- ⊙ Compatibility with sensitive component of bird's nest
- ⊙ Resistance to UV and thermal shock
- ⊙ Infinitely washable and withstand sterilization

## Higher quality

- ⊙ European based glass know-how, Chinese craftsmanship spirits
- ⊙ High transparency of the container magnifies the quality of the bird's nest
- ⊙ Glass weight amplifies the abundance of product
- ⊙ Pharmaceutical glass and strict and a strict control or strict controls of raw materials ensure the purity of the glass

## Innovation

- ⊙ Exceptional capability in product design and development
- ⊙ Unique and fine designs for jars
- ⊙ Customization with various creative decoration

## Competitiveness

- ⊙ Standard neck finish compatible with existing filling line and perfectly match with standard capsules
- ⊙ Available in made-to-stock products minimizes the development time and cost
- ⊙ Total packaging solution available
- ⊙ High automation production with good efficiency and optimized cost

## Sustainability

- ⊙ Respect for people and environment
- ⊙ Clean energy consumption
- ⊙ Reduction of greenhouse gas emissions
- ⊙ Waste recycling system
- ⊙ SA 8000 and ISO 14001 certified

\* HACCP stands for Hazard Analysis Critical Control Points. It is a method of identifying and eliminating potential hazards in food production. Those hazards that cannot be eliminated are controlled in such a way that the consumer is protected. These controls are known as Critical Control Points (CCPs). They are CRITICAL because if they fail or are not carried out, the risk of the product harming the customer, increases.

## Our range of bare glass bottles

Reference	Nominal capacity (ml)	Height (mm)	Diameter (mm)	Brimful capacity (ml)	Neck finish
77740 02	70	71	52	87	48-FD-157A
77744 01	70	63	63.5	85	48-FD-157A
77762 02	40	72	42.6	53	GPI-2225
77741 02	50	75.2	44.8	63	WGF-158M
77750 01	70	67	54	91	WGF-148S
77763 01	120	110	53	140	GPI-2210

## Customization

- ◉ Custom-made shape
- ◉ Development of specific shape and neck finish on customer request

## Sustainable decoration

Various decoration possibilities with organic ink, free from heavy metals
